# DRUM SCALE

Designed with a low-profile weighing surface, the B-TEK Drum Scale's deck height makes this scale ideal for use with pallet jacks, dollies, wheeled carts, and storage drums rolled on end. The scale is available in Alkyd Enamel painted mild steel and 304 stainless steel.

The Drum Scale can be supplied with built-in or detachable ramps, indicator column, and wheeled portability kits. Its simple, robust design allows for adaptability in many different types of industrial applications and environments. When it comes to industrial scales, B-TEK can help you succeed and reach prime productivity.

## Features

- NTEP COC: 94-092A3
- Low-profile, above ground installation
- Capacities from 1,000 to 2,500 lb
- 1-1/2" nominal deck height
- 24" x 24" to 48" x 48" platform - custom sizes upon request
- Side access junction box location
- Leveling foot adjustment holes in side rail
- B-TEK stainless steel ball encapsulated foot - 2.5" diameter base
- NEMA 4 FRP junction box with signal trim summing card

## Stainless Steel

- 1/4" 304 stainless steel smooth deck with live side rail design
- Exposed surfaces are sand blasted to a clean, consistent appearance
- Stainless steel (IP67), 350 ohms, 3.0 mV/V load cells

## Carbon Steel

- 1/4" mild steel tread plate deck with live side rail design
- Alkyd Enamel paint system
- Plated alloy steel, 350 ohms, 3.0 mV/V load cells

## Options

- Built-in or detachable ramps
- Indicator column
- Wheeled portability kits
- Pull handle
- IP68 load cells

Shown with optional column
