

PINNACLE SCALES

Discover how the 5,000 to 10,000 pound capacity of our sturdy steel floor scales can help your business conquer all of its industrial weighing challenges. Our floor scales offer flawless and accurate industrial weighing that can streamline daily warehouse operations. Use our scales for applications such as shipping and receiving, scrap recycling, freight forwarding and inventory control.

All platform scales should be quick and precise like our NTEP scales. Put them to the test to discover the benefits of a safer, more convenient platform scale. Components like a practical plug and weigh system, heavy-duty diamond tread plates, and top access junction box should be reason enough to add Pinnacle Scale models to your warehouse.

Our scales include the PS3000 Digital Weight Indicator featuring a 1" tall LED display, 120 VAC power, and RS-232 communication port for an optional printer.

All our legal for trade scales are certified under the National Type Evaluation Program. This certificate indicates the device is capable of meeting applicable requirements of the National Institute of Standards and Technology. NTEP also certifies the scales legal for trade, so if you are using your scale for commerce, such as selling, buying, trading, or establishing a cost for services based on weight, Pinnacle NTEP certified scales are for you!

Floor Scales Quick Guide

Plug and Weigh Set Up

- Heavy Duty Steel Construction
- Heavy Duty Diamond Tread Plate
- Two-Part Epoxy Paint Finish
- Four NTEP Approved Alloy Steel Load Cells
- Four Ball & Cup Support Feet for Scale Leveling
- 20' Braided Interface Cable with Quick Connect
- Top Access Junction Box
- "Legal for Trade" – NTEP CC 12-062 – Class III

Specifications

- Platform Sizes:
 - 3' X 3' X 3.5" H,
 - 4' X 4' X 3.5" H
 - 5' X 5' X 3.5" H
- Capacities:
 - 5,000 LB X 1LB
 - 10,000 LB X 2LB
- Load Cells: Alloy Steel Shear Beams
- Cable Length: 20' Braided
- Approvals: NTEP CC 12-062, Class III 5000d

PS 3000 Indicator Features

- Bright 1" Tall LED Display
- Painted Steel Enclosure with Mounting Bracket
- Simple Operation
- LB/KG Conversion
- 120 VAC Power
- RS-232 Communication Port for Optional Printer
- NTEP CC 12-061, Class III 5000d

Applications

- Shipping and Receiving
- Scrap Recycling
- Freight Forwarding
- Inventory Control
